COVINGTON NEWS.

Shooting Appear.—A man named Jacob Kraut was held to bail in the sum of \$500, by Judga Maltas, day before yesterday, for his appearance at the next term of the Circuit Coûrt, on a charge of shooting a man named McCloud, with intent to kill. McCloud was committing depredations upon Mr. Kraut's vegetable garden. The wounds given are not serious.

Breach of the Peace at the Rahledad Electron—Heavy Peralty Invidend.—Three men, John Groover, Peter Eichenlaub, and Joseph Maxwell, were fined \$5 and costs each, by Mayor Foley, yesterday, for assaulting a man named Henry Myers, at the Sixth Ward polls, last Saturday. Myers was in favor of the railroad and bridge proposition, and took an active part in electioneering for the measure, which was regarded as an offense so heinous by the three above named individuals that they determined to drive him from the polls. The Mayor, in giving his decision, eulogized the elective franchise as the most sacred right of an American citizen, and its violation as offense deserving the severest punishment; and we believe the people will fully concur with him.

The Sabbath-school room is one of the largest, most admirably arranged, and neatly finished rooms of the kind we have ever seen. All the services of the church will he conducted in it till the andience room is completed. The Sabbath-school will meet at 9 o'clock; preaching at 11 o'clock, A. THE SOUND OF THE PRELIMINARY TRUNK .-What a sound that is—the banging down of the preliminary trunk, without its claimant to give it the life which is borrowed by all to give it the life which is borrowed by all personal appendages, so long as the owner's hand or eye is on them! If it announces the coming of one loved and longed for, how we delight to look at it, to sit down on it, to caress it in our fancies, as a lone exile walking out on a windy pier yearns toward the merchantman lying alongside, with the colors of his own native land at her peak, and the name of the port he saited from long ago upon her stern! But if it tell the near approach of the undesired, inevitable guest, what sound short of the muffled noises made by the undertakers as they turn the corners in the dim-lighted house, with low shuffle of feet and whispered cautions, carries such a sense of knocking-kneed collapse with it as the thumping down in the front entre of the heavy portmanteau, rammed with the changes of uncounted coming weeks?—Dr. O. Removing an Old and Putting up a New Bridge in a Day.—A new iron bridge was lately erected over Eshleman's Creek, near Harrisbug, Penn. This bridge is full forty-five feet span, and the workmen commenced removing the old bridge in the morning, and had the new one completed, ready for the passage of trains, before night. All business is suspended on this road, on Sunday, except the construction of bridges, which, in the case of railroads, seems to be a work of necessity. The various pieces are got ready during the week, so that nothing remains to be done on Sunday, when no trains are running, but to erect the spans and relay the track.

AMUSEMENTS.

Woop's Theaten.—The drama of The Heart of the Mid Leiham drew quibe a fair audience to Wood's last night, and the performance peaced of very agreeably. The impersonation of 'Lennis Deans' by Anuette Ince was excellent, probably the best as a whole with which the has yet favored un. It will be repeated this evening, and we carnestly advise all the lowers of Scott's admirable story to witness the drama. Effe Ellietr plays the character of "Effe Deans" quite well, and the entire play is rendered in a very creditable manner.

concert room, and her performance drew down not only a most enthusiastic excers, but a perfect avalanche of flowers.

The stage had been fitted up for the occasion in exquisite style, and amid a forest of flowers the sweet-voiced singer ran about to pick up the honquets that had been thrown her, until her pretty hands were tired, and she, apparently, deliciously bewildered by their fragrance.

Ed. Dannrouther, the pianist, and Prof. flofies, the violinist, performed admirably and—we hope they regarded it as a compliment—were hearrily received. Altogether the concert was one of the most successful we have heard during the esseon, and would, if repeated, draw quite as large and fashionable an audience. NATIONAL THEATER.—A complimentary

concert, to take place to-morrow evening, at the National Theater, has been tendered Mr. Thomas Cook, the leader of the orchestra. A number of amateurs have volunteered their services, and the ntertainment promises to be one of considerable in-sect.

been made acquainted with the name of the writer, we embrace the earliest opportunity to lay it before our readers:

To the Mesical and Drumatic Editor of the Cincinnati Frees—Dran Sex:—Having neticed a communication in your issue of the 25th inst, over the signature of "An Old Critic," reflecting, I think, unjustly upon an estimable lady and an excellent actress, I ask the use of your columns to reply.

While I fully indorse the remarks of your correspondent, on Amsteur performances, I must strongly protest against such lilogical criticism as that on the rendition of "Magnerite," in The Rossence of a file, for the continuous cont

lady who was cast for the part; and he must have but a slender idea of the business of an artist who supposes that the author's creation could interfere in such a manner as to render if impossible to represent it in better style then it was last week at Wood's Theater. The character of "Marguerite" was not fully appreciated by the actress, and if it had been, she has not the vocal power or artistic finish of expression to faithfully translate it to her audience. Wanting these, the artist must mar, more or less, any performance in which they are required; but having them, she may add new beauties to those of the author, and recreate the character anew in her impersonation.—Ep.

RIVER NEWS.

The Ohio opposite this port was still declining yesterday, having receded during the twenty-four hours ending last evening about fifteen inches, leaving a channol-depth between here and Louis-ville of less than ten feet. The water was falling more slowly last night, but if it continue to recede at the rate it has been receding for the past three days, the larger boats will experience difficulty in navigation.

The river at Pitisburg resterday was stationary, with five feet six incless, and we do not look for much more of a decline here.

The weather resterday was unseasonably coul and quite cloudy, but pleasant, with a few spray-like showers of very brief duration. There were indications of rgin last night in the heaven, but the temperature rather contradicted them.

The Wharf was very dull resterday, much more so than on Wednesday; fewer steamers and less freight being there. The few boats taking cargoes were receiving very slowly. Rates of freight remained firm at these flaures.

As Unfatthful Wife in New Orleans—Her Paramour Shet Dend by her Husband.
A criminal intimacy existing between a Police Clerk's wife in New Orleans, and an angineer, resulted on Friday, the 25th ult., in the death of the betrayer of the husband's house. George S. Howe, Clerk of the Fourth District Station, shot Joseph Williams, a man of family and resident of the same city, because he believed W. too intimate with his (H.'s) wife, and on Monday surrendered himself to the police. No doubt Howe a suspicions were correct, and that he had cause for the homicide may be seen from his statement, which is generally believed, before the examining Court:

The prisoner hesitated a moment before commencing, and then burst into tears. A short time afterward he said: "I am a native of Pennsylvania, and am thirty years of ago, I married my wife in 1851. I became acquainted with her ten months before our marriage, while she was boarding at Mrs. Ryan's, corner of Edward and Camp-streets. Three are considered by Father Belier, of St. Thereas's Church. I became acquainted with her ten months before our marriage, while she was boarding at Mrs. Ryan's, corner of Edward and Camp-streets. We were married by Father Belier, of St. Theresa's Church. My wife, I believe, was born in Ireland. I have had five children by my wife, two of whom are now dead; of those who are alive there is Charles, aged eight years, Alice, aged seven years, and Charles Carroll, aged four years. I have strived to make money for my family, and during the last four years I have missed working but a few months. I have received from \$110 to \$150 per month. I am now the unhapplest man alive, and I feel that my future is blasted. I think my wife was in the habit of giving money to Howe, for what with the house expenses and my perfy expenses, there was a good pertion left, but we were always short. I requested him on several occasions to keep away from my house, and he promised to do so. They have been seen together frequently, and on last Monday week I saw them together at the corner of Scraparu and Chippewa-streets. I then ordered her to go home, and on heway she followed me, abusing me for everything she could think of. She said she loved another man, and said she wanted to leave me, if I would give her the children. I went to see Howe on last Friday, and told him openly that I believed he had designs upon my wife, but he denied it, and promised me not to go near the house, or to see her again.

Notwithstanding this, on that very night, just as I had got into bed, I heard a knock, and my wife went to see who it was. Being suspicious of her, I listened, and peeped out of the room, and saw her admit Howe. She caught hold of him by the lappels of the cost,

"You would not shoot anybody." Then he made a movement, and I shot him.

The Mississippi River Lower than Ever Known—The Sugar Crop Suppersing.—The Mississippi River, says Tuesday's New Orleans Delta, is at the present moment four feet lower than it was ever known before in the memory of the oldest inhabitant. It is so low that our planters are suffering for the want of sepage water, to get rid of which has heretofore been the greatest trouble. The want of moisture is seriously retarding the growth of the plant-cane, upon which our planters rely for a good crop, the stubble being generally a total failure. In certain localities, as Pointe Coupee and West Baton Rouge, and in the Grosse Tete country, they have had good showers and the plant looks very well, but generally on the coast the cry is for rain. It is about time our June showers should commence, and they may probably bring out the cane and give us a fair crop. The low stage of the river is regarded by many persons as a favorable prognostic of a healthy summer. Should this hope be realized, New Orleans will begin her usual business season with brighter auspices than ever. being generally a total failure. Esglish Brutality and Cruelity Exposed. The brutality of American masters at sea has furnished English journalists with a prolific theme for at least a dozen years. That occasional instances of maltreatment may be met with on American vessels, we admit, but that such an unmitigated piece of brutality as the Aylesbury News chronicles as having just been displayed in England, would have been tolerated any where upon American soil, we

Aylesbury News chronicles as having just been displayed in England, would have been tolerated any where upon American soil, we doubt. An offending member of an artiflery company, which was ordered from Northampton to Aldershot, by way of punishment, was tied to a gun-carriage, and as he was either unable or too obstinate to walk, he was dragged out of town as far as Tingewick-Road Bridge, and only released from the wheels of the gun-carriage when it was found that he was on the verge of strangulation, black in the face, and blood gushing in torrents from his nose and mouth. Without claiming for our people any superfluous tenderness of feeling, we will yet venture to assert that no artillery company would dare, if disposed, to drag a man at the tail of a gun through the streets of a town in the heart of a thickly settled country.

A SANGUINARY TRAGEDY IN GEORGIA—TWO BROTHERS WANTONLY MURDERED.—A horrible double homicide was committed Saturday last, in Chattahooche County, Ga. A man named Doolittle became offended with an old gentleman named Helms, on account of the refusal of the latter to drink with him, and shortly after D. meeting with two sons of Helms, asked them to drink with him, which they also declined doing, when a difficulty arose between the parties, and Doolittle indicted severe and fatal wounds upon one of the brothers with a knife. He then walked off a short distance as if to get his horse, but soon returned, and finding the other young Helms stooping over the body of his wounded brother, he literally cut his throat also.

NOTABLE MARRIAGE,—Mrs. Bodisco, widow of the late decessed Russian Minister at this Government, and formerly the beautiful Miss Williams, of Georgetown, was united, as has been anticipated, in marriage on Tuesday, to Captain Scott, of the British Army. Among those present were Lord Lynns, Secretary Thompson, and many of the Senators and members of Congress.

TRAGEDY IN LOUBIANA—Two RECYMBER RILLED.—In Tigerville, La. recently, a difficulty took place between William Hornsby and Hugh H. Wallis, the latter stabbing the fermer 20 yeary dangerously that but little hopes are entertained of his recovery. On the following day James Hornsby, the brother of the wonnded man, met Wallis, and upon a few words being exchanged between them, the former shot at the latter four times—Wallis dying shortly after from the shots received.
